DEFINITIONS (CONT'D)

Call Forwarding (cont'd)

Call Forwarding Busy: Allows incoming calls to a busy station to be routed to a preselected station line or attendant within the same system or outside the system. Intercom calls can be arranged to be forwarded to a number different from DID calls. Allows incoming calls to be automatically routed to a preselected station line or attendant in the same system or outside the system, when the called station is not answered after a preset number of rings. Intercom calls can be arranged to be forwarded to a number different from DID calls.

Call Forwarding Variable Limited: When this feature is activated by a station line user or the attendant, incoming calls to the activated station line or attendant position will be automatically routed to any other selected station line, within the same Centrex system, or to the attendant position. The attendant may also activate this feature for a station line user.

Call Forwarding Variable Unlimited: The same a Call Forwarding Variable Limited except that incoming calls may be automatically routed to a telephone number outside the Centrex system or to station lines within the same Centrex system. The attendant may not activate this feature to a telephone number outside the Centrex system for a station line use. Calls forwarded outside the Centrex system are subject to the appropriate charges for local and toll messages.

Call Hold: Allows the user to hold one call for any length of time provided that neither party goes on-hook.

Call Park: Allows a station line to park a call against its own line number. The parked call can be retrieved from any station line by dialing a feature code and the line number against which the call is parked.

2.2 Prohibited Uses

- 2.2.1 The services the Company offers shall not be used for any unlawful purpose or for any use as to which the Customer has not obtained all required governmental approvals, authorizations, licenses, consents and permits.
- 2.2.2 The Company may require applicants for service who intend to use the Company's offerings for resale and/or for shared use to file a letter with the Company confirming that their use of the Company's offerings complies with relevant laws and PSC regulations, policies, orders, and decisions.
- 2.2.3 The Company may require a Customer to immediately shut down its transmission of signals if said transmission is causing interference to others.
- 2.2.4 A customer, joint user, or authorized user may not assign, or transfer in any manner, the service or any rights associated with the service without the written consent of the Company. The Company will permit a Customer to transfer its existing service to another entity if the existing Customer has paid all charges owed to the Company for regulated communications services. Such a transfer will be treated as a disconnection of existing service and installation of new service, and non-recurring installation charges as stated in this tariff will apply.

2.4 Customer Equipment and Channels

2.4.1 General

A User may transmit or receive information or signals via the facilities of the Company. The Company's services are designed primarily for the transmission of voice-grade telephonic signals, except as otherwise stated in this tariff. A User may transmit any form of signal that is compatible with the Company's equipment, but the Company does not guarantee that its services will be suitable for purposes other than voice-grade telephonic communication except as specifically stated in this tariff.

2.4.2 Station Equipment

2.4.2.1 Terminal equipment on the User's Premises and the electric power consumed by such equipment shall be provided by and maintained at the expense of the User. The User is responsible for the provision of wiring or cable to connect its terminal equipment to the Company Point of Connection.

2.4.2.2 The Customer is responsible for ensuring that Customer-provided equipment connected to Company equipment and facilities is compatible with such equipment and facilities. The magnitude and character of the voltages and currents impressed on Company-provided equipment and wiring by the connection, operation, or maintenance of such equipment and wiring shall be such as not to cause damage to the Company-provided equipment and wiring or injury to the Company's employees or to other persons. Any additional protective equipment required to prevent such damage or injury shall be provided by the Company at the Customer's expense.

2.5.1 Payment for Service

The Customer is responsible for the payment of all charges for facilities and services furnished by the Company to the Customer and to all Users authorized by the Customer, regardless of whether those services are used by the Customer itself or are resold to or shared with other persons.

2.5.2 Billing and Collection of Charges

2.5.2.1 Non-recurring charges are due and payable from the Customer within 15 days after the invoice date.

2.5.2.2 The Company shall present invoices for Recurring Charges monthly to the Customer, in advance of the month in which service is provided, and Recurring Charges shall be due and payable within 15 days after the invoice date. Usage charges be billed after the month in which the charges are incurred. Charges will be due and payable within 15 days after the invoice date.

2.5.2.3 When service does not begin on the first day of the month, or end on the last day of the month, the charge for the fraction of the month in which service was furnished will be calculated on a pro rate basis. For this purpose, every month is considered to have 30 days.

2.6 Allowances for Interruptions in Service

Interruptions in service, which are not due to the negligence of, or noncompliance with the provisions of this tariff by, the Customer or the operation or malfunction of the facilities, power or equipment provided by the Customer, will be credited to the Customer as set forth in 2.6.1 for the part of the service that the interruption affects.

2.6.1 Credit for Interruptions

- 2.6.1.1 A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this tariff. An interruption period begins when the Customer reports a service, facility or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility or circuit is operative. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.
- 2.6.1.2 For calculating credit allowances, every month is considered to have 30 days. A credit allowance for fixed recurring fees only is applied on a pro rate basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.

2.7 Use of Customer's Service by Others

2.7.1 Resale and Sharing

Any service provided under this tariff may be resold to or shared with other persons at the option of Customer, subject to compliance with any applicable laws or Arizona State Corporation Commission regulations governing such resale or sharing. Customer remains solely responsible for all use of services ordered by it or billed to its telephone number(s) pursuant to this tariff, for determining who is authorized to use its services, and for notifying the Company of any unauthorized use.

2.7.2 Joint Use Arrangements

Joint use arrangements will be permitted for all services provided under this tariff. From each joint use arrangement, one member will be designated as the Customer responsible for the manner in which the joint use of the service will be allocated. The Company will accept orders to start, rearrange, relocate, or discontinue service only from the Customer. Without affecting the Customer's ultimate responsibility for payment of all charges for the service, each joint user shall be responsible for the payment of the charges billed to it.

APPLICATION OF RATES

3.1 Introduction

The regulations set forth in this section govern the application of rates for services contained in other sections of this tariff.

3.2 Charges Based on Duration of Use

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- 3.2.1 Calls are measured in durational increments identified for each service. All calls which are fractions of a measurement increment are rounded-up to the next whole unit.
- 3.2.2 Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s). Timing for operator service person-to-person calls start with completion of the connection to the person called or an acceptable substitute, or to the PBX station called.
- 3.2.3 Timing terminates on all calls when the calling party hangs up or the Company's network receives an off-hook signal from the terminating carrier.
- 3.2.4 Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call.
- 3.2.5 All times refer to local time.

APPLICATION OF RATES (CONT'D)

3.3 Rates Based Upon Distance

Where charges for a service are specified based upon distance, the following rules:

- 3.3.1 Distance between two points is measured as airline distance between the Rate Centers of the originating and terminating telephone lines. The Rate Center is a set of geographic coordinates, as referenced in National Exchange Carrier Association, Inc. Tariff FCC No. 4. FCC Access Services Tariff, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven-digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as a dedicated 800 or WATS access line), the Company will apply the Rate Center of the Customer's main billing telephone number.

3.3 Rates Based Upon Distance (Cont'd)

3.3.2 The airline distance between any two Rate Centers is determined as follows:

3.3.2.1 Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above-referenced NECA tariff.

3.3.2.2 Compute the difference between the "V" coordinates of the two rate centers; and the difference between the two "H" coordinates.

3.3.2.3 Square each difference obtained in step (b) above.

3.3.2. Add the square of the "V" difference and the square of the "H" difference obtained in step (c) above.

3.3.2.5 Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.

3.3.2.6 Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

EXCHANGE ACCESS SERVICE

5.1 General

Exchange Access Service provides a Customer with a telephonic connection to, and a unique telephone number address on the public switched telecommunications network. Each Exchange Access Service enables users to:

- 5.1.1 receive calls from other stations on the public switched telecommunications network;
- 5.1.2 access other services offered by the Company as set forth in this tariff;
- 5.1.3 access certain interstate and international calling services provided by the Company;
- 5.1.4 access (at no additional charge) the Company's operators and business office for service related assistance;
- 5.1.5 access (at no additional charge) emergency services by dialing 0- or 9-1-1; and
- 5.1.6 access services provided by other common carriers which purchase the Company's Switched Access services as provided under the Company's Federal and State tariffs, or which maintain other types of traffic exchange arrangements with the Company.
- 5.1.7 Exchange Access Service cannot be used to originate calls to other companies' caller-paid information services (e.g. NPA 900, NXX 970, 540, etc.). Calls to those numbers and other numbers used for caller-paid information services will be blocked. Calls to numbers "NXX 976" will also be blocked unless otherwise specified by the Customer at the time service is ordered. Should the Customer request unblocking for access to "NXX 976" caller-paid information service, the Company will not bill and collect or provide billing name and address information to the information service provider.

5.6 Centrex Service (Cont'd)

CTX 103

CTX 103 is a Centrex Service which offers a large menu of features to business customers with 2 to 100 lines. CTX 103 is offered as a complete service only; Exchange Service and Intercommunication Service cannot be purchased separately. CTX 103 is an engineered service and requires customers to dial 9 to access a line external to the CTX103 system. CTX 103 lines are priced according to the number of lines in the system. CTX 103 system includes only those stations whose inward local exchange and toll service is through the customer's main switching location via a single central office code (NXX). Winstar does not offer uniform call distribution features to CTX 103 customers.

EXCHANGE ACCESS OPTIONAL FEATURES (CONT'D)

6.2 Direct Inward Dial (DID) Service

DID service is an optional feature which can be purchased in conjunction with Company-provided Basic Trunks or Digital Trunks. DID service transmits the dialed digits for all incoming calls allowing the Customer's PBX to route incoming calls directly to individual stations corresponding to each individual DID number. Charges for DID capability and DID number blocks apply in addition to charges specified for Basic Trunks or Digital Trunks in Sections 5.4 and 5.5, respectively.

One DID Additive charge applies for each DID-equipped Basic Trunk or DID-equipped channel on a Digital Trunk. Customer is required to purchase at least one DID number block for each DID-equipped trunk or trunk group, or DID-equipped channel or channel group.^{4/} Charges apply regardless of whether the Customer purchases Full or Port-Only service.

| | <u>Non-Recurring</u> | <u>Monthly Recurring</u> |
|---------------------------------------|----------------------|--------------------------|
| Block of 20 DID Numbers | \$ 20.00 | \$3.00 Group |
| Each Add'l Block of 20 DID Numbers | \$ 19.00 | |

* Maximum of 300 DID Numbers per 24 trunks. Maximum of 1,200 DID Numbers per Customer. ICB beyond these levels.

^{4/} A "group" is a set of Basic Trunks or Digital Trunk channels which have been configured into a hunt group.

EXCHANGE ACCESS OPTIONAL FEATURES (CONT'D)

6.3 Foreign Exchange (FX) Service

6.3.1 Description

FX Service enables a Customer to receive a Company-provided Exchange Access Service at a point outside the Exchange Access Service Area corresponding to the NPA-NXX designation (as set forth in Section 4.1) of such Exchange Access Service.

The Local Calling Area and all Usage Service rates which apply to an FX Exchange Access Service are the same as those which regularly apply to other Company-provided Exchange Access Services bearing the same NPA-NXX designation.

6.3.2 Rates

FX service charges are calculated on a distance basis:

For service provided to a point within another Exchange Access Service Area designated by the Company, mileage will be calculated as the distance between the Company's Wire Center location associated with the NPA-NXX designation of the FX service, and the Company's Wire Center location serving the Exchange Access Service Area in which the FX service is delivered to the Customer.

For service provided to a point outside of any of the Company's designated Exchange Access Service Areas, mileage will be calculated as the distance between the Company's Wire Center location associated with the NPA-NXX designation of the FX service, and the end office maintained by the dominant LEC which would otherwise serve the Customer's premises at which the service is provided.

OTHER SERVICE ARRANGEMENTS**11.1 Private Line Service****11.1.1 Description of Service**

Private Line Service consists of the services offered pursuant to this tariff, either individually or in combination. Each service is offered independently of the other and is offered via Winstar's facilities. Winstar's Private Line Service is a point-to-point microwave facility that utilizes the 38 GHz radio frequency as well as the Common Carrier Bands (6, 11, 18 & 23GHz) to provide dedicated intrastate communication links. Winstar's Private Line Service is subject to the availability of the necessary facilities.

11.1.2 Service Relocations

Business Customers have the option to request a move or relocation of service termination location subject to the availability of the necessary facilities. The type of move or relocation and whether service is interrupted will determine the charges associated with moves or relocations and will be handled on a case by case basis. When a digital access line is relocated to a different location, the non-recurring installation charge for that type service (i.e., DS-3 or OC-3) will apply.

11.1.3 High Capacity Service

Service is offered at the following operating speeds:

11.1.3.A DS-1 Service

DS-1 Service is a digital transmission facility of 1.544 Mbps with a capacity of up to 24 analog or digital channels. This service supports voice, analog data, digital data, and video.

11.1.3.B. DS-3 Service

DS-3 Service is a digital transmission facility of 44.736 Mbps with a capacity of 28 DS-1 channels or 672 voice, analog data, or digital data channels.

11.1.3.C OC-3 Service

OC-3 Service is a digital transmission facility of 155 Mbps with a capacity of up to 84 DS-1 channels. This service supports voice, analog data, digital data and video.

11.1.4 Service Configuration

11.1.4.A Private Line Service will be physically supported with a combination of enabling technologies. Winstar will use, at its discretion, both owned and leased facilities to provision the private line circuit end-to-end.

11.1.4.B Winstar's Private Line Service is available to Winstar business customers who wish to connect at least two (2) of their own buildings, or who wish to connect with another company's building.

12.1 Operator Services

12.1.1 Description

Operator Handled Calling Services are provided to Customers and Users of Company-provided Exchange Access Services, and to Customers and Users of exchange access lines which the Customer has pre-subscribed to the Company's Pre-Subscribed MTS.

12.1.2 Definitions

Person-to-Person: Calls completed with the assistance of a Company operator to a particular person, station, department, or PBX extension specified by the calling party. Charges may be billed to the Customer's commercial credit card and/or LEC calling card, calling station, called station, or a designated thirty-party station.

Station-to-Station: Refers to calls other than person-to-person calls billed to either the end user's commercial credit card and/or non-proprietary calling card. Calls may be dialed with or without the assistance of a Company operator. Collect calls to coin telephones and transfers of charges to third telephones which are coin telephones will not be accepted.

Operator Dialed Charge: The end user places the call without dialing the destination number, although the capability to do it himself exists. The end user will dial "0" for local calls and "00" for long distance calls and then requests the operator to dial the called station.

Billed to Non-Proprietary Calling Card: Refers to calls that are dialed by the customer in accordance with standard dialing instructions and billed to a non-proprietary calling card issued by another carrier.

12.2 Busy Line Verify and Line Interrupt Service

12.2.1 Description

Upon request of a calling party the Company will verify a busy condition on a called line.

12.2.1.1 The operator will determine if the line is clear or in use and report to the calling party.

12.2.1.2 The operator will interrupt the call on the called line only if the calling party indicates an emergency and requests interruption.

12.2.2 Regulations

12.2.2.1 A charge will apply when:

- A. The operator verifies that the line is busy with a call in progress.
- B. The operator verifies that the line is available for incoming calls.
- C. The operator verifies that the called number is busy with a call in progress and the customer requests interruption. The operator will then interrupt the call, advising the called party the name of the calling party. One charge will apply for both verification and interruption.
